ReeEEEEEEee - An animalistic sound of pain

Have you ever hear a pig when it is in pain? Imagine that sound coming out of a soy cuck. The Internet has come to use this sound as the sound that soy fucks and super autists make when their emotions overwhelm their brain and instead of expressing what they want to, they just make a squealing sound.

This is a ReeEEEEEEee sound : <https://www.youtube.com/watch?v=VoNGrW8aMRs>

## The Last Mile

The last mile refers to the short geographical distance that must be spanned to provide telecommunications or computer network services to end-user customers.

The last mile is typically the most **complex**, expensive, and most critical phase to get to the finish line.

**Getting to November** with our rational minds and courage intact will be extremely challenging.

Fear and confusion will be the tools used **against patriotic Americans** to distract and obscure our focus, but we must overcome these obstacles.

**Vote** in person, and **God bless America!**
